SUBJECT INDEX FOR VOLUME 67 (JANUARY THROUGH DECEMBER 1989)[1]

A

ACTH
397A, 398A
Effect of glucocorticoids and limiting nursing on the carbohydrate digestive capacity and growth rate of piglets, 2956
Response of digestive carbohydrases and growth to graded doses and administration frequency of hydrocortisone and Adrenocorticotropic hormone in nursing pigs, 2974
Temporal changes in carbohydrate digestive capacity and growth rate of piglets in response to glucocorticoid administration and weaning age, 2985
ATPase
Dietary protein-induced changes in porcine muscle respiration, protein synthesis and adipose tissue metabolism, 664
Abortion
335A
Effect of termination of pregnancy or long-term progestogen exposure on subsequent estrous cycle length and concentration of progesterone in plasma of heifers, 1552
Absorption
570A
Influence of diet composition on intestinal fatty acid and nutrient absorption in unanesthetized pigs, 386
Acceptability
157A, 158A, 2B
Accuracy
41A, 70A, 74A, 65B
Acid Base Balance
477A
Voluntary feed intake, acid-base balance and partitioning of urinary nitrogen in lambs fed corn silage with added sodium bicarbonate or sodium sesquicarbonate, 2116
Acidity
126A, 136A, 475A, 21B
Comparisons of three-way and backcross swine: II. Wholesale cuts and meat quality, 2025
Factors affecting the in vitro production of volatile fatty acids by mixed bacterial populations from the bovine rumen, 1593
Acrosomes
Long-term liquid storage of porcine spermatozoa separated using a discontinuous bovine serum albumin gradient, 1497
Activation
376A, 400A
Adaptation
523A
Intensive housing–The last straw for pigs?, 2433
Physiological adaptation to the environment, 2426
Additive Models
30A, 59A
Genetic evaluation under an animal model when identical genotypes are represented in the population, 1946
Additives
2A, 297A
Control of fermentation in high-moisture baled alfalfa by inoculation with lactic acid-producing bacteria: I. Large round bales, 1577
Control of fermentation in high-moisture baled alfalfa by inoculation with lactic acid-producing bacteria: II. Small rectangular bales, 1586
Adenosine
192A
Adhesion
172A, 514A, 520A, 521A
Adipocytes
193A, 207A, 223A, 224A, 100B
Acute effects of beta-adrenergic agonists on porcine adipocyte metabolism in vitro, 2930
Determination of the affinity of ractopamine and clenbuterol for the beta-adrenoceptor of the porcine adipocyte, 2937
Effects of creep feeding, zeranol implants and breed type on beef production: II. Reproductive development and fat deposition in heifers, 617
Regulation of gene expression during adipocyte differentiation: A review, 2263
The influence of insulin, triiodothyronine (T_3) and insulin-like growth factor-I (IGF-I) on the differentiation of preadipocytes in serum-free cultures of pig stromal-vascular cells, 3136
Adipose Tissue
202A, 217A, 552A, 553A, 210B
Acute and long-term lipogenic response to insulin and clenbuterol in bovine intramuscular and subcutaneous adipose tissues, 928
Acute changes in blood flow in pigs infused with β-adrenergic agonists, 2913
Adipose tissue lipogenesis in growing steers adapted to different levels of feed intake, 3011
Dietary protein-induced changes in porcine muscle respiration, protein synthesis and adipose tissue metabolism, 664
Effect of ractopamine on insulin sensitivity and response of isolated rat adipocytes, 1455
Effect of suppression of prolactin secretion on adipose lipogenesis in the postpartum beef cow, 2904
Glucocorticoids and the differentiation of porcine preadipocytes, 2222
Insulin-like growth factor 1 induction of differentiation of porcine preadipocytes, 2452
Transforming growth factor type β (TGF-β) and adipogenesis in pigs, 2171

[1]Page numbers followed by A under subject headings refer to the 1989 Abstract issue, J. Anim. Sci. 67(Suppl. 1). Page numbers followed by B under subject headings refer to the 1989 Section Abstracts issue, J. Anim. Sci. 67(Suppl. 2).

Adjustment
10B
Adjusting weaning weights of Simmental beef calves to an age-constant basis, 20
Adjustment factors for 120-day weaning weight in Rambouillet range lambs, 1107
Adrenal Glands
396A
Adrenal Hormones
398A
Adrenal Response
194B
Adrenalectomy
132B
Adrenaline
Influence of infused β-adrenergic agonists on porcine blood metabolites and catecholamines, 2633
Adsorption
137A
Advising
591A
Aerosols
142A
Aflatoxins
36B
Influence of dietary protein, fat or amino acids on the response of weanling swine to aflatoxin B_1, 465
Age Adjustments
56A, 73A, 65B
Adjusting weaning weights of Simmental beef calves to an age-constant basis, 20
Age of cow and age of dam effects on milk production of Hereford cows, 2544
Agglutination
146A
Aggression
97A
Sexual differentiation in litter-bearing mammals: Influence of sex of adjacent fetuses in utero, 1824
Aging
357A
Acceleration of postmortem tenderization in ovine carcasses through infusion of calcium chloride: Effect of concentration and ionic strength, 934
Agriculture Systems
17B
Air Quality
97B
Alfalfa
255A, 269A, 276A, 277A, 278A, 282A, 289A, 296A, 297A, 299A, 309A, 418A, 477A, 488A, 492A, 527A, 530A, 554A, 114B, 147B, 148B, 204B
Control of fermentation in high-moisture baled alfalfa by inoculation with lactic acid-producing bacteria: I. Large round bales, 1577
Control of fermentation in high-moisture baled alfalfa by inoculation with lactic acid-producing bacteria: II. Small rectangular bales, 1586
Influence of diet composition on intestinal fatty acid and nutrient absorption in unanesthetized pigs, 386
Alkaline Hydrogen Peroxide
579A, 151B, 156B
Allantoic Fluid
370A
Almond Hulls
187B
Alpaca
Sheep and alpaca productivity on high Andean rangelands in Peru, 3087
Alpha-Ketoglutarate
Alteration of nitrogen metabolism by alpha-ketoglutarate administration in growing lambs fed high nonprotein nitrogen-containing diets, 2386
Aluminum
476A
Amaranth
Nutritive value of a vegetable amaranth cultivar for growing lambs, 3036
Amino Acids
147A, 186A, 234A, 235A, 236A, 240A, 241A, 295A, 326A, 486A, 496A, 508A, 526A, 541A, 40B, 75B, 120B, 157B, 226B
Alteration of nitrogen metabolism by alpha-ketoglutarate administration in growing lambs fed high nonprotein nitrogen-containing diets, 2386
Apparent digestibility of nitrogen and amino acids in protein feedstuffs by growing pigs, 441
Digestibility, protein metabolism and ruminal degradation of Beagle 82 triticale and kline barley fed in corn-based cattle diets, 1793
Effects of monensin and pH on the production and utilization of pyro-glutamate, a novel product of ruminal glutamine deamination, 2370
Evaluation of soybean meal, corn gluten meal, blood meal and fish meal as sources of nitrogen and amino acids disappearing from the small intestine of steers, 262
Influence of dietary protein, fat or amino acids on the response of weanling swine to aflatoxin B_1, 465
Nutritional value of quality protein maize and food corn for starter and growth pigs, 1285
The effect of feeding different protein-free diets on the recovery and amino acid composition of endogenous protein collected from the distal ileum and feces in pigs, 746
The effect of protein status of the pig on the recovery and amino acid composition of endogenous protein in digesta collected from the distal ileum, 755
The influence of pregnancy and source of supplemental protein on intake, digestive kinetics and amino acid absorption by ewes, 1805
Aminoethylphosphonic Acid
Occurrence of 2-aminoethylphosphonic acid in feeds, ruminal bacteria and duodenal digesta from defaunated sheep, 1061
Ammonia
279A, 381A, 513A, 524A, 42B, 230B
Effects of monensin and pH on the production and utilization of pyro-glutamate, a novel product of ruminal glutamine deamination, 2370
Ammoniated Feeds
6A
Effects of ammoniated bermudagrass hay and monensin supplementation on heifer postweaning growth, 1698
Ammoniation
32B, 33B, 152B, 192B
Ammonium Carbamate
33B
Ammoniuria
Voluntary feed intake, acid-base balance and partitioning of urinary nitrogen in lambs fed corn silage with added sodium bicarbonate or sodium sesquicarbonate, 2116
Amylase
576A, 53B, 131B
Response of digestive carbohydrases and growth to graded doses and administration frequency of

hydrocortisone and adrenocorticotropic hormone in nursing pigs, 2974
Anabolic Agents
215A, 174B, 179B
Anabolic implant and frame size effects on growth regulation, nutrient repartitioning and energetic efficiency of feedlot steers, 2792
Growth and sexual characteristics of suckling beef calves as influenced by age at castration and growth implants, 1258
Analytical Methods
128A
Anatomy
611A
Composition of the whole body and component fractions in mature ewes from seven breeds, 2565
Relationship between fasting heat production, body composition and tissue distribution in mature ewes from seven breeds, 2576
Androgens
409A
Androgen and estrogen receptors in bovine skeletal muscle: Relation to steroid-induced allometric muscle growth, 206
Anestrus
359A, 377A, 115B
Computer modeling of sheep reproduction: I. An algorithm for quantifying anestrous cycles in ewes, 2197
Computer modeling of sheep reproduction: II. Accelerated reproduction in sheep, 2212
Nutritional anestrus in beef cows: Body weight change, body condition, luteinizing hormone in serum and ovarian activity, 1520
Nutritional anestrus in beef cows: Concentrations of glucose and nonesterified fatty acids in plasma and insulin in serum, 2354
Angora
511A, 528A, 90B
Angus
162A, 442A, 10B, 12B
Animal Breeding
39A
Animal Model
52A, 69A, 71A, 72A, 83B
Animal Science
589A, 590A, 620A, 17B, 70B
Animal Welfare
101A, 594A, 595A
Bedding material preferences of ponies, 1986
Intensive housing–The last straw for pigs?, 2433
The physical space requirement of the sow, 1242
Antagonists
Effects of metoclopramide on steers grazing endophye-infected fescue, 1090
Anthelmintics
432A, 545A, 66B, 95B, 169B
Anthelmintics
Effect of fenbendazole and pyrantel tartrate on the induction of protective immunity in pigs naturally or experimentally infected with *Ascaris suum*, 628
Influence of helminth parasite exposure and strategic application of anthelmintics on the development of immunity and growth of swine, 1668
Antibiotics
22A, 123A, 544A
Antibodies
Effectiveness of vaccination in controlling ovine footrot, 1160
Antigens
239A, 520A, 598A
Antihistamines
Possible role of histamine in the regulation of secretion of luteinizing hormone in the ewe, 1006
Antipyrine
Effects of endophyte-infected fescue and cimetidine on respiration rates, rectal temperatures and hepatic mixed function oxidase activity as measured by hepatic antipyrine metabolism in sheep, 3370
Antiviral Activity
403A
Applied Statistics
69B
Arachidonic Acid
141B
Arginine
2B
Arsenicals
Amelioration of selenium toxicity by arsenicals and cysteine, 959
Artery
324A
Artificial Insemination
49A, 55A, 455A, 463A, 88B
Artificial Intelligence
460A
Ascaris suum
Effect of fenbendazole and pyrantel tartrate on the induction of protective immunity in pigs naturally or experimentally infected with *Ascaris suum*, 628
Ascorbate
514A
Ash
27B
Aspen
579A
Aspirin
108B
Astringent Off-Flavor
186A
Asynchronous
379A
Atrophy
180B
Attenuation
120A
Automation
446A
Autoradiography
Insulin and insulin-like growth factor-I stimulate DNA synthesis in bovine mammary tissue in vitro, 3503
Availability
262A
Effects of faunation and type of dietary protein on gastric solubility and liver content of copper in sheep, 3028
Effects of source and level of copper on performance and liver copper stores in weanling pigs, 2996
Estimation of the relative bioavailability of manganese sources for sheep, 2409
Avoparcin
444A

B

β-Adrenergic
224A
β-Adrenergic Agonists
151A, 191A, 192A, 193A, 221A, 223A, 265A, 552A, 74B, 180B
Evaluation of cimaterol for finishing swine including a drug withdrawal period, 168
Muscle protein metabolism in finishing pigs fed ractopamine, 2255
β-Adrenergic Receptors
190A, 223A
Acute effects of beta-adrenergic agonists on porcine adipocyte metabolism in vitro, 2930
Determination of the affinity of ractopamine and clenbuterol for the beta-adrenoceptor of the porcine adipocyte, 2937
BLUP
31A, 34A
Adapting best linear unbiased prediction (BLUP) for timely genetic evaluation. I. Progeny traits in a single contemporary group for each sex, 3209
Adapting best linear unbiased prediction (BLUP) for timely genetic evaluation. II. Progeny traits in multiple contemporary groups within a herd, 3223
Multiple trait prediction for a type of model with heterogeneous genetic and residual covariance structures, 2529
Babcock
127A
Backfat
Genetic correlations between test station and on-farm performance for growth rate and backfat in pigs, 1425
Bacon
181B
Bacteria
5A, 15A, 273A, 277A, 225B
Alkaline hydrogen peroxide-treated wheat straw as a source of energy for ruminal bacteria in continuous culture, 2081
Bacterial Attachment
111A
Bacteriophage
173A
Balenine
182B
Barbary Sheep
301A
Barium
566A
Barley
292A, 294A, 436A, 512A, 130B, 167B, 183B, 184B, 185B, 186B, 192B, 209B, 214B, 215B, 217B, 218B
Digestibility, protein metabolism and ruminal degradation of Beagle 82 triticale and kline barley fed in corn-based cattle diets, 1793
Effect of pelleting and β-glucanase supplementation on the ileal and fecal digestibility of a barley-based diet in the pig, 1293
Beans
267A
Bedding
14A
Bedding material preferences of ponies, 1986
Beef
156A, 159A, 162A, 163A, 178A, 180A, 181A, 183A, 202A, 305A, 467A, 468A, 600A, 21B, 98B, 101B, 102B, 159B, 181B
Changes in lipid content of ground beef from yearling steers serially slaughtered after varying lengths of grain finishing, 711
Comparisons of *Bos indicus* and *Bos taurus* inheritance for carcass beef characteristics and meat palatability, 2661
Composition and palatability of early and late maturing beef breed-types, 142
Estimation of beef forequarter composition by prediction equations, 2316
Removing excess subcutaneous and internal fat from beef carcasses before chilling, 881
The effects of muscle thickness and time on feed on hot fat trim yields, carcass characteristics and boneless subprimal yields, 2669
Beef Bulls
196B
A comparison of the breeding performance of yearling and 2-year-old Hereford bulls, 1175
Breeding performance of beef bulls assigned to two-sire cow groups on pasture, 2848
Effects of natural mating stimuli on serum luteinizing hormone, testosterone and estradiol-17β in yearling beef bulls, 3277
Efficacy of methods used to test fertility of beef bulls used for multiple-sire breeding under range conditions, 1757
Estimation of genetic parameters among breeding soundness examination components and growth traits in yearling bulls, 2892
Serving capacity of crossbred yearling beef bulls. I. Single-sire mating behavior and fertility during average and heavy mating loads at pasture, 60
Serving capacity of crossbred yearling beef bulls. II. Summer grazing activity and body temperature patterns during average and heavy mating loads at pasture, 72
Beef Calves
199A, 17B, 48B
Beef Cattle
15A, 36A, 42A, 43A, 44A, 45A, 69A, 70A, 75A, 88A, 89A, 90A, 122A, 163A, 181A, 199A, 218A, 222A, 269A, 305A, 306A, 398A, 437A, 438A, 440A, 464A, 465A, 466A, 550A, 568A, 572A, 580A, 1B, 6B, 11B, 15B, 28B, 30B, 35B, 47B, 65B, 82B, 84B, 138B, 145B, 162B, 163B, 165B, 167B, 174B, 175B, 178B, 197B, 214B, 218B, 229B, 230B
Adipose tissue lipogenesis in growing steers adapted to different levels of feed intake, 3011
Adjusting weaning weights of Simmental beef calves to an age-constant basis, 20
Age of cow and age of dam effects on milk production of Hereford cows, 2544
Aversion to eating poisonous larkspur plants induced in cattle by intraruminal infusion with lithium chloride, 1980
Characterization of cattle types to meet specific beef targets, 2294
Combinations of high-moisture harvested sorghum grain and dry-rolled corn: Effects on site and extent of digestion in beef heifers, 1623
Comparison of two- and three-way rotational crossing, beef × beef and beef × Brown Swiss

composite breed production: Postweaning growth and carcass traits, 2603
Comparisons of Brahman and continental European crossbred cows for calving ease in a subtropical environment, 1722
Conception rate at first insemination in beef cattle: Effects of season, age and previous reproductive performance, 1405
Conception rate in *Bos taurus* and *Bos indicus* crossbred heifers after postweaning energy manipulation and synchronization of estrus with melengestrol acetate and fenprostalene, 1138
Control of the bovine estrous cycle with melengestrol acetate (MGA): A review, 1895
Crossbreeding among British and continental European dual-purpose breeds in the coastal Pacific Northwest, 2841
Effect of dietary protein level on nitrogen metabolism in the growing bovine: I. Nitrogen recycling and intestinal protein supply in calves, 810
Effect of dietary protein level on nitrogen metabolism in the growing bovine: II. Diffusion into and utilization of endogenous urea nitrogen in the rumen, 820
Effect of suppression of prolactin secretion on adipose lipogenesis in the postpartum beef cow, 2904
Effects of a monensin ruminal delivery device on daily gain, forage intake and ruminal fermentation of steers grazing irrigated winter wheat pasture, 2129
Effects of breeding system, cow weight and milk yield on reproductive performance in beef cattle, 1714
Effects of embryo transfer in beef cattle on genetic evaluation methodology, 2536
Effects of inbreeding and heterosis in Hereford females on fertility, calf survival and preweaning growth, 895
Effects of previous nutrition, feedlot regimen and protein level on feedlot performance of beef cattle, 318
Effects of sire breed, breed type and age and weight at breeding on calving rate and date in beef heifers first exposed at three ages, 1128
Endocrine and metabolic changes during altered growth rates in beef cattle, 1446
Evaluation of crossbreeding systems for small beef herds: I. Single-sire systems, 28
Evaluation of crossbreeding systems for small beef herds: II. Two-sire systems, 40
Factors influencing calving difficulty in beef heifers, 3243
Genetic parameter estimates for postweaning traits of beef cattle in a stressful environment, 2619
Growth performance, feed intake, and nutrient digestibility by beef calves fed sweet sorghum silage, corn silage and fescue hay, 1341
Influence of breed and diet on growth, nutrient digestibility, body composition and plasma hormones of Brangus and Angus steers, 2415
Influence of soybean meal and sorghum grain supplementation in intake, digesta kinetics, ruminal fermentation, site and extent of digestion and microbial protein synthesis in beef steers grazing blue grama rangeland, 3040
Intake and digestibility of low-quality meadow hay by cattle receiving various levels of whole shelled corn, 2854
Lifetime productivity of straightbred and F_1 cows of a five-breed diallel, 1964
Multiple ovulation and embryo manipulation in the improvement of beef cattle: Relative theoretical rates of genetic change, 2863
Multiple trait prediction for a type of model with heterogeneous genetic and residual covariance structures, 2529
Physiological responses of cattle consuming tall fescue to environmental temperature and supplemental phenothiazine, 2377
Portability of animal breeding research to developing countries: Beef cattle, 342
Production characters of straightbred, F_1 and F_2 cows: Birth and weaning characters of terminal-cross calves, 1972
Relationships of sire scrotal circumference to offspring reproduction and growth, 2881
Systemic progesterone concentration following human chorionic gonadotropin administration at various times during the estrous cycle in beef heifers, 1564
The effects of ruminal escape protein or fat on ruminal characteristics of pregnant winter-grazing beef cows, 2782
The relationship of insulin-like growth factor-I with postweaning performance in Angus beef cattle, 2872
The relationships of birth weight, preweaning gain and postweaning gain with the bovine major histocompatibility system, 641
Use of embryo transfer to induce twinning in beef cattle: Embryo survival rate, gestation length, birth weight and weaning weight of calves, 301
Variance heterogeneity in direct and maternal weight traits by sex and percent purebred for Simmental-sired calves, 2515

Beef Cows

Chymosin
125A
Cimaterol
189A, 102B
Effects of cimaterol on nitrogen retention and energy utilization in lambs, 674
Effects of cimaterol on rabbit growth and myofibrillar protein degradation and on calcium-dependent proteinase and calpastatin activities in skeletal muscle, 3313
Evaluation of cimaterol for finishing swine including a drug withdrawal period, 168
Muscle protein turnover and tenderness in broiler chickens fed cimaterol, 2646
Cimetidine
Effects of endophyte-infected fescue and cimetidine on respiration rates, rectal temperatures and hepatic mixed function oxidase activity as measured by hepatic antipyrine metabolism in sheep, 3370
Citrate
296A
Clam Viscera
223B
Classification
Current methods of on-line carcass evaluation, 2155
Cleaning
142A
Clearance Rate
109B
Clenbuterol
383A, 53B

Acute changes in blood flow in pigs infused with β-adrenergic agonists, 2913
Acute effects of beta-adrenergic agonists on porcine adipocyte metabolism in vitro, 2930
Determination of the affinity of ractopamine and clenbuterol for the beta-adrenoceptor of the porcine adipocyte, 2937
Influence of infused β-adrenergic agonists on porcine blood metabolites and catecholamines, 2633
Skeletal muscle protein synthesis and growth hormone secretion in young lambs treated with clenbuterol, 2245
Climate
168B
Effects of diet and climate on growing horses, 48
Interrelationships among water quality, climate and diet on feedlot performance of steer calves, 357
Clinoptilolite
Effects of dietary protein level and clinoptilolite on the weight gain and liver mineral response of growing lambs to copper supplementation, 2772
Clitoral Stimulation
173B
Clones
Genetic evaluation under an animal model when identical genotypes are represented in the population, 1946
Cloning
113A, 115A, 172A, 354A
Cloprostenol
139B
Clover
45B, 48B

Coccidiosis
27A, 242A, 414A
Cocoa Shell Meal
493A
Coconut Oil
Apparent fat digestibilities and performance responses of postweaning swine fed diets supplemented with coconut oil, corn oil or tallow, 2040
Coffee Whitener
169A
Cognition
101A, 102A
Conglutinate
114A
Cold Stress
539A
Physiological adaptation to the environment, 2426
Collaborative Study
170A
Collagen
120A, 179A, 104B
Relationships among intramuscular collagen, serum hydroxyproline and serum testosterone in growing rams and wethers, 698
Collections
The role of biological research in the development of facilities, 2441
Color
Comparisons of three-way and backcross swine: II. Wholesale cuts and meat quality, 2025
Colostrum
194A, 236A, 414A, 540A
Effect of colostrum or medium-chain triglyceride supplementation on the pattern of plasma glucose, non-esterified fatty acids and survival of neonatal pigs, 983
Communication Skills
592A
Comparison
74A, 5B
Compensatory Growth
166A, 189A, 218B, 228A, 570A, 28B, 75B, 107B, 154B
Effects of previous nutrition, feedlot regimen and protein level on feedlot performance of beef cattle, 318
Competitive Fertilization
368A
Components
226A
Computer
33A, 470A, 587A, 589A, 596A, 162B
Estimation of components of variance and covariance by symmetric differences squared and minimum norm quadratic unbiased estimation: A comparison, 348
Computer Simulation
458A, 86B
Computer modeling of sheep reproduction: II. Accelerated reproduction in sheep, 2212
Computer simulation of a cattle feedlot production system, 1116
Concentration
131A, 135A
Conception
138B, 162B
Conception Rate
352A, 363A, 133B, 138B, 139B, 173B
Conception rate at first insemination in beef cattle: Effects of season, age and previous reproductive performance, 1405
Conceptus
321A, 401A
Effect of initial length of uterus per embryo on fetal survival and development in the pig, 1767
Conceptus Secretory Proteins
403A
Condition Scores
3A, 385A, 437A, 462A, 529A, 557A, 568A, 57B, 60B, 89B
Effects of energy and lasalocid on productivity of first-calf heifers, 1879
Nutritional anestrus in beef cows: Body weight change, body condition, luteinizing hormone in serum and ovarian activity, 1520
Conditioned Reflex
31A
Food aversion learning: Ability of lambs to distinguish safe from harmful foods, 1732
Food aversion learning: Conditioning lambs to avoid a palatable shrub *(Cercocarpus montanus)*, 641
Conjugation

130B
Copper
4A, 8A, 320A, 193B, 211B
Cupric oxide needles for grazing cattle consuming low-copper, high-molybdenum forage and high-sulfate water, 252
Effects of biotin and high copper levels on performance and immune response of weanling pigs, 1471
Effects of copper and molybdenum supplements on the copper and selenium status of pregnant ewes and lambs, 803
Effects of dietary protein level and clinoptilolite on the weight gain and liver mineral response of growing lambs to copper supplementation, 2772
Effects of faunation and type of dietary protein on gastric solubility and liver content of copper in sheep, 3028
Effects of source and level of copper on performance and liver copper stores in weanling pigs, 2996
Serum zinc, iron and copper status during early gestation in sows fed a folic acid-supplemented diet, 733
The influence of mineral supplementation on growth and skeletal development of yearling horses, 2831
The metabolism of 75Se-selenomethionine in sheep given supplementary copper and molybdenum, 2400
Copper Sulfate
Effects of source and level of copper on performance and liver copper stores in weanling pigs, 2996
Corn
14A, 152A, 266A, 279A, 418A, 516A, 573A, 26B, 115B, 129B, 144B, 145B, 188B, 212B, 215B
Combinations of high-moisture harvested sorghum grain and dry-rolled corn: Effects on site and extent of digestion in beef heifers, 1623
Digestibility, protein metabolism and ruminal degradation of Beagle 82 triticale and kline barley fed in corn-based cattle diets, 1793
Effects of corn grinding and time of corn feeding on growth, starch utilization and digesta passage characteristics of growing steers fed hay-based diets, 1603
Intake and digestibility of low-quality meadow hay by cattle receiving various levels of whole shelled corn, 2854
Nutritional value of quality protein maize and food corn for starter and growth pigs, 1285
Corn By-Products
Corn fiber as an energy supplement in high-roughage diets fed to steers and lambs, 1784
Effects of dry corn gluten feed on feedlot cattle performance and fiber digestibility, 501
Corn Gluten Feed
247A, 489A, 78B, 144B
Corn Gluten Meal
Evaluation of soybean meal, corn gluten meal, blood meal and fish meal as sources of nitrogen and amino acids disappearing from the small intestine of steers, 262
Corn Oil
Apparent fat digestibilities and performance responses of postweaning swine fed diets supplemented with coconut oil, corn oil or tallow, 2040
Corn Protein
529A
Corn Silage
497A, 517A, 152B
Growth performance, feed intake and nutrient digestibility by beef calves fed sweet sorghum silage, corn silage and fescue hay, 1341
Corn Stover
290A
A simulation model of forage yield, quality and intake and growth of growing cattle grazing cornstalks, 581
Diet composition and daily gain of growing cattle grazing dryland and irrigated cornstalks at several stocking rates, 590
Growth response to escape protein and forage intake by growing cattle grazing cornstalks, 574
Yield and quality components of corn crop residues and utilization of these residues by grazing cattle, 597
Corn Syrup Solids
541A
Corncobs
265A
Cornstalks
495A, 530A
Corpus Luteum
336A, 337A, 338A, 371A, 404A, 411A, 412A, 855A, 5B, 140B
Effect of termination of pregnancy or long-term progestogen exposure on subsequent estrous cycle length and concentration of progesterone in plasma of heifers, 1552
Modulation of luteal activity in postpartum beef cows through changes in dietary lipid, 785
Ovarian responses to intramuscular or intravenous administration of prostaglandin $F_{2\alpha}$ in control and FSH-treated beef heifers, 2075
Correlated Responses
13B, 164B
Correlation
37A, 41A, 76A, 87A
Genetic parameter estimates for postweaning traits of beef cattle in a stressful environment, 2619
Correspondence Course
18B
Corticosterone
397A
Cortisol
24A, 99A, 106A, 312A, 61B
Chronic effects of recombinant porcine growth hormone on adrenal weight and activity in pigs, 1740
Effects of stimulation, with and without ejaculation, on serum concentrations of LH, FSH, testosterone, cortisol and prolactin in stallions, 2724

Costs
457A, 603A
Cottonseed
487A, 199B
Ruminal metabolism in nonlacting cows fed whole cottonseed or extruded soybeans, 1612
Cottonseed Meal
551A, 560A, 579A, 17B, 68B, 195B, 206B, 208B
Covariance
Estimation of components of variance and covariance by symmetric differences squared and minimum norm quadratic unbiased estimation: A comparison, 348
Cow Evaluation
73A, 74A
Cow Malnutrition
539A

Dichlorofluorescein
315A
Dictyocaulus viviparus
The effects of *Dictyocaulus viviparus* infection on energy metabolism of calves, 241
Diet
9A, 181A, 246A, 321A, 470A, 597A
Interrelationships among water quality, climate and diet on feedlot performance of steer calves, 357
Diet Formulation
241A, 445A, 597A, 610A, 226B
Computer simulation of a cattle feedlot production system, 1116
Dietary Factors
Factors influencing magnesium absorption and metabolism in ruminants, 3445
Dietary Fat
311A, 485A, 571A
Influence of dietary protein, fat or amino acids on the response of weanling swine to aflatoxin B_1, 465
Survival and postweaning performance of pigs from sows fed fat during late gestation and lactation, 1889
Diets
422A
Diet composition and daily gain of growing cattle grazing dryland and irrigated cornstalks at several stocking rates, 590
Effects of feed or water restriction, antibiotic injection and receiving diet management on commingled feeder pig performance, 1183
Food aversion learning: Conditioning lambs to avoid a palatable shrub *(Cercocarpus montanus)*, 641
Growth response to escape protein and forage intake by growing cattle grazing cornstalks, 574
Modulation of luteal activity in postpartum beef cows through changes in dietary lipid, 785
Differentiation
Differentiation of sexual behavior in cattle, sheep and swine, 1816
Glucocorticoids and the differentiation of porcine preadipocytes, 2222
Insulin-like growth factor 1 induction of differentiation of porcine preadipocytes, 2452
Regulation of gene expression during adipocyte differentiation: A review, 2263
The influence of insulin, triiodothyronine (T_3) and insulin-like growth factor-I (IGF-I) on the differentiation of preadipocytes in serum-free cultures of pig stromal-vascular cells, 3136
Digesta
280A, 515A
The effect of feeding different protein-free diets on the recovery and amino acid composition of endogenous protein collected from the distal ileum and feces in pigs, 746
The effect of protein status of the pig on the recovery and amino acid composition of endogenous protein in digesta collected from the distal ileum, 755
Digesta Kinetics
557A
Digestibility
46A, 230A, 235A, 241A, 246A, 256A, 271A, 288A, 308A, 474A, 488A, 493A, 521A, 555A, 556A, 558A, 565A, 572A, 573A, 25B, 78B, 113B, 184B, 185B, 188B, 204B, 208B
A review of the use of intrinsically ^{14}C and rare earth-labeled neutral detergent fiber to estimate particle digestion and passage, 2123
Apparent digestibility of nitrogen and amino acids in protein feedstuffs by growing pigs, 441
Apparent fat digestibilities and performance responses of postweaning swine fed diets supplemented with coconut oil, corn oil or tallow, 2040
Control of fermentation in high-moisture baled alfalfa by inoculation with lactic acid-producing bacteria: I. Large round bales, 1577
Control of fermentation in high-moisture baled alfalfa by inoculation with lactic acid-producing bacteria: II. Small rectangular bales, 1586
Effect of pelleting and β-glucanase supplementation on the ileal and fecal digestibility of a barley-based diet in the pig, 1293
Effects of protein and carbohydrate sources on digestibility and digesta flow rate in weaned pigs fed a high-fat, dry diet, 2333
Grazing selectivity and in vivo digestibility of switchgrass strains selected for differing digestibility, 1418

Growth performance, feed intake, and nutrient digestibility by beef calves fed sweet sorghum silage, corn silage and fescue hay, 1341
Nutrient utilization by limit- and ad libitum-fed horses, 414
Nutritional value of quality protein maize and food corn for starter and growth pigs, 1285
Nutritive value of a vegetable amaranth cultivar for growing lambs, 3036
The evaluation of the mobile nylon bag technique for determining the apparent protein digestibility in a wide variety of feedstuffs for pigs, 432
Digestibility Markers
151B
Digestibility Trials
Effect of group size and feeding regimen on nutrient digestibility studies with weanling pigs, 2684
Digestible Energy

338A
Laidlomycin Propionate
525A
Lamb Carcasses
20B
Lamb Diseases
25A
Lamb Fattening
Effect of altering nutrient density (concentrate to roughage ratio) and restricting energy intake on rate, efficiency and composition of growing lambs, 865
Lamb Production
Lifetime production of 1/4 and 1/2 Finnsheep ewes from Rambouillet, Targhee and Columbia dams as affected by natural attrition, 3258
Lamb Tenderness
166A
Lambs
47A, 99A, 121A, 165A, 166A, 202A, 284A, 356A, 360A, 480A, 537A, 541A, 544A, 562A, 565A, 567A, 3B, 53B, 77B, 147B, 153B, 154B, 156B, 157B, 169B, 210B, 222B, 226B
Adjustment factors for 120-day weaning weight in Rambouillet range lambs, 1107
Effects of dairy biomass protein on ruminal fermentation and site and extent of nutrient digestion by lambs, 2762
Grazing selectivity and in vivo digestibility of switchgrass strains selected for differing digestibility, 1418
Nutritive value of a vegetable amaranth cultivar for growing lambs, 3036
Skeletal muscle protein synthesis and growth hormone secretion in young lambs treated with clenbuterol, 2245
The effects of bovine growth hormone and thyroxine on growth rate and carcass measurements in lambs, 3300
Using ultrasound, linear measurements and live fat thickness estimates to determine the carcass composition of market lambs, 3322
Voluntary feed intake, acid-base balance and partitioning of urinary nitrogen in lambs fed corn silage with added sodium bicarbonate or sodium sesquicarbonate, 2116
Zinc methionine for ruminants: Relative bioavailability of zinc and effect on performance of growing heifers, 835
Lasalocid
27A, 499A, 525A, 566A, 567A, 169B, 206B, 207B
Effects of energy and lasalocid on productivity of first-calf heifers, 1879
Salinomycin and lasalocid effects on growth rate, mineral metabolism and ruminal fermentation in steers, 2735
Lean
78A, 204A, 181B
Performance and carcass composition of limit-fed growing-finishing swine, 1916
Lean Beef
Composition and palatability of early and late maturing beef breed-types, 142
Lean Efficiency
80B
Lean Lamb
76A
Learning
95A, 601A
Food aversion learning: Ability of lambs to distinguish safe from harmful foods, 1732
Food aversion learning: Conditioning lambs to avoid a palatable shrub *(Cercocarpus montanus)*, 641
Lecithins
Influence of level and source of dietary fat on its comparative feeding value in finishing diets for steers: Feedlot cattle growth and performance, 1029
Influence of level and source of dietary fat on its comparative feeding value in finishing diets for feedlot steers: Metabolism, 1038
Lectins
Cytochemistry for lectins, actin, nucleotide tetrazolium reductases and several phosphatases in the porcine semitendinosus muscle: Vascular development in young pigs, 1375
Leg Weakness
77A
Legumes
270A, 302A, 306A, 224B
Duodenal nutrient flow and digestibility in Holstein steers fed formaldehyde- and formic acid-treated alfalfa or orchardgrass silage at two intakes, 513
Leucine
219A
Nitrogen and protein metabolism and metabolites in plasma and urine of beef steers treated with somatotropin, 105

Leuconostoc
113A
Leuconostoc cremoris
112A
Leukemia
18A
Leukocyte
9A
Levamisole
232B
Libido
340A
Life History
Lifetime productivity of straightbred and F_1 cows of a five-breed diallel, 1964
Lifespan
Lifetime production of 1/4 and 1/2 Finnsheep ewes from Rambouillet, Targhee and Columbia dams as affected by natural attrition, 3258
Light Intensity
362A
Light Stability
124A
Ligninase
319A
Lignocellulose
474A
Lime
Management practices to overcome the incidence of grass tetany, 3470
Limit Feeding
519A, 144B, 147B
Limited Nursing
Effect of glucocorticoids and limiting nursing on the carbohydrate digestive capacity and growth rate of piglets, 2956
Linear Measurements
42A, 614A, 84B
Linear Models
607A
Linear Traits
83A
Liner
12A, 364A
Liner Slip
419A
Linkage
51A, 67A, 84B
Linoleic Acid
Utero-placental transfer of octanoic, palmitic and linoleic acids during late gestation in gilts, 738
Lipid Metabolism
59B
Glycerolipid biosynthesis in porcine adipose tissue in vitro: Effect of adiposity and depot site, 364
Lipid Oxidation
185A
Lipids
116A, 348A, 543A, 117B, 209B
Modulation of luteal activity in postpartum beef cows through changes in dietary lipid, 785
Postweaning swine performance and serum profile responses to supplemental medium-chain free fatty acids and tallow, 2048
Lipogenesis
216A
Acute and long-term lipogenic response to insulin and clenbuterol in bovine intramuscular and subcutaneous adipose tissues, 928
Acute effects of beta-adrenergic agonists on porcine adipocyte metabolism in vitro, 2930
Adipose tissue lipogenesis in growing steers adapted to different levels of feed intake, 3011
Effect of ractopamine on insulin sensitivity and response of isolated rat adipocytes, 1455
Effect of suppression of prolactin secretion on adipose lipogenesis in the postpartum beef cow, 2904
Lipolysis
216A, 552A, 100B
Acute effects of beta-adrenergic agonists on porcine adipocyte metabolism in vitro, 2930
Effect of ractopamine on insulin sensitivity and response of isolated rat adipocytes, 1455
Influence of infused β-adrenergic agonists on porcine blood metabolites and catecholamines, 2633
Lipoproteins
226A
Anticholesteremic property of *Lactobacillus acidophilus* yogurt fed to mature boars, 966
Liposome
354A
Liquid Trace Mineral
273A
Listeria
137A, 138A, 139A, 172A
Litter Performance
12B, 67B, 120B
Litter Size
47A, 65A, 69A, 324A, 81B, 90B, 162B
Effect of birth and fraternal litter size and cross-fostering on growth and reproduction in swine, 635
Effect of dietary folic acid supplementation on sow performance through two parities, 3360
Effect of postnatal nutritional status on subsequent growth and reproductive performance of gilts, 975
Folic acid supplementation to diets of gestating-lactating swine over multiple parities, 459
Improving parity-two litter size in swine, 1707
Index selection for components of litter size in swine: Response to five generations of selection, 1933
Influence of sulfate in drinking water on mouse reproduction during two parities, 1313
Integration of ovulation rate, potential embryonic viability and uterine capacity into a model of litter size in swine, 1230
Litter Weight
Influence of sulfate in drinking water on mouse reproduction during two parities, 1313
Litter-Treated Silage
494A
Live Placing
600A
Liver Abscesses
544A
Factors affecting in-transit shrink and liver abscesses in fed steers, 311
Liver Flukes
35B
Liver Lipid
396A
Livers
3A, 4A, 205A, 326A, 390A
Ionophores alter hepatic concentrations of intermediary carbohydrate metabolites in steers, 2393

Isolation and characterization of recombinant cDNA clones corresponding to developmentally regulated genes in pig liver, 1082
Livestock
5A, 420A
Physiological adaptation to the environment, 2426
Locomotion

Mammary Denervation
362A
Mammary Development
116B
Mammary Glands
226A, 310A, 315A, 319A, 326A
Relationships among prolactin binding, prolactin concentrations in plasma and metabolic activity of the porcine mammary gland, 1509
Mammary Glycoproteins
314A
Mammary Involution
313A

Mammary Secretion
313A
Mammary Tissue
Insulin and insulin-like growth factor-I stimulate DNA synthesis in bovine mammary tissue in vitro, 3503
Quantitation of prolactin-dependent responses in porcine mammary explants, 1013
Mammary Tumor Virus
319A
Management
71A, 446A, 448A, 449A, 458A, 461A, 468A, 583A, 587A, 596A, 603A, 604A, 605A, 205B
Influence of helminth parasite exposure and strategic application of anthelmintics on the development of immunity and growth of swine, 1668
Managers
Manger space requirements for limit-fed feedlot steers, 853
Manganese
252A, 296A, 503A
Estimation of the relative bioavailability of manganese sources for sheep, 2409
The influence of mineral supplementation on growth and skeletal development of yearling horses, 2831
Manuscript Processing
587A
Marbling Score
119A, 122A, 164A, 22B
Mares
103A, 391A, 392A
Changes in serum concentrations of luteinizing hormone and follicle-stimulating hormone following injection of gonadotropin-releasing hormone during pregnancy and after parturition in mares, 1330
Reproductive traits, lactation and foal growth in mares fed altrenogest, 1154
Marker Assisted Selection
31A
Markers
288A, 561A, 577A
A review of the use of intrinsically ^{14}C and rare earth-labeled neutral detergent fiber to estimate particle digestion and passage, 2123
Effects of corn grinding and time of corn feeding on growth, starch utilization and digesta passage characteristics of growing steers fed hay-based diets, 1603
Occurrence of 2-aminoethylphosphonic acid in feeds, ruminal bacteria and duodenal digesta from defaunated sheep, 1061
Passage of chromium-mordanted and rare earth-labeled fiber: Time of dosing kinetics, 1020
Marketing
Factors affecting in-transit shrink and liver abscesses in fed steers, 311
Masculinization
Differentiation of sexual behavior in cattle, sheep and swine, 1816
Influence of age and testosterone levels on masculine development in rams, 2943
Mast Cell
196B
Mastectomy
138B
Mastication
Eating and ruminating behavior of steers fed coastal bermudagrass hay at four levels, 3410
Effects of ingestive mastication on particle dimensions and weight distribution of coastal bermudagrass hay fed to steers at four levels, 538
Effects of time of day and monensin on the size distribution of particles in digestive tract sites of heifers fed corn silage, 1773
Intake of direct cut or wilted grass silage as related to chewing behavior, ruminal characteristics and extent of digestion by heifers, 2802
Quantitative analysis of nycterohemeral eating and ruminating patterns in heifers with different voluntary intakes and effects of monensin, 2751
Mastitis
10A, 11A, 14A, 20A, 21A, 22A, 23A, 24A, 85A, 86A, 325A, 467A, 586A
Mastitis Management
24A
Maternal Behavior
106A
Maternal Body Gain
248A
Maternal Effects
34A, 43A, 52A, 378A, 79B, 82B, 85B, 94A
Crossbreeding among British and continental European dual-purpose breeds in the coastal Pacific Northwest, 2841
Cytoplasmic genetic effects and growth of hybrid mice, 887
Effect of birth and fraternal litter size and cross-fostering on growth and reproduction in swine, 635
Effects of inbreeding and heterosis in Hereford females on fertility, calf survival and preweaning growth, 895
Estimation of components of variance and covariance by symmetric differences squared and minimum norm quadratic unbiased estimation: A comparison, 348
Molecular analysis of cytoplasmic genetic variation in Holstein cows, 1926
Variance heterogeneity in direct and maternal weight traits by sex and percent purebred for Simmental-sired calves, 2515
Maternal Separation
381A
Mating
612A
Effects of natural mating stimuli on serum luteinizing hormone, testosterone and estradiol-17β in yearling beef bulls, 3277
Serving capacity of crossbred yearling beef bulls. I. Single-sire mating behavior and fertility during average and heavy mating loads at pasture, 60
Mating Strategies
59A, 597A
Mating Systems
440A
Matrix Inversion
30A
Mature Weight
9B
Maturing Interval
9B
Maturity
167A, 281A
Endocrine and histologic correlates of the dynamics of the metacarpal growth plate in growing rams, 3124
Influence of age and testosterone levels on masculine development in rams, 2943

Influence of gender, breed and age on maturity characteristics of sheep, 2460
Maximum Likelihood
33A, 35A, 80A, 8B, 85B
Measurements
120A
Factors influencing calving difficulty in beef heifers, 3243
Meat Characters
Management of yearling bulls in a feedlot, 858
Meat Cuts
Comparisons of three-way and backcross swine: II. Wholesale cuts and meat quality, 2025
Meat Quality
38A, 182A, 224A
X-ray diffraction measurements of myofilament lattice spacing and optical measurements of reflectance and sarcomere length in commercial pork loins, 152
Meat Tenderness
102B
Meat Yield
Changes in lipid content of ground beef from yearling steers serially slaughtered after varying lengths of grain finishing, 711
Meat and Bone Meal
Influence of supplemental protein source and protein concentration on ruminal and intestinal digestion in heifers, 2743
Meats
108A, 121A, 143A, 188A
Comparisons of *Bos indicus* and *Bos taurus* inheritance for carcass beef characteristics and meat palatability, 2661
Effect of fasting and transportation on various physiological parameters and meat quality of slaughter hogs, 334
Mediterranean Climate
Improving feeding systems for sheep in a Mediterranean rain-fed cereals/livestock area of Morocco, 3080
Medium Reductant
514A
Medium-Chain Fatty Acids
Postweaning swine performance and serum profile responses to supplemental medium-chain free fatty acids and tallow, 2048
Medium-Chain Triglycerides
238A, 119B
Effect of colostrum or medium-chain triglyceride supplementation on the pattern of plasma glucose, non-esterified fatty acids and survival of neonatal pigs, 983
Utilization of medium-chain triglycerides by neonatal piglets: I. Effects on milk consumption and body fuel utilization, 3331
Utilization of medium-chain triglycerides by neonatal piglets: II. Effects of even- and odd-chain triglyceride consumption over the first 2 days of life on blood metabolites and urinary nitrogen excretion, 3340
Medulation
174B
Megalac
389A
Meishan
79A
Melatonin
362A, 398A, 73B, 201B
Melengestrol Acetate
438A, 87B
Control of the bovine estrous cycle with melengestrol acetate (MGA): A review, 1895

Mineral Oils
Rapid [^{14}C]heptachlor clearance from body stores of ovines: Ingested mineral oil and parenteral trans-stilbene oxide lack effects, 187
Mineral Supplements
481A
Cupric oxide needles for grazing cattle consuming low-copper, high-molybdenum forage and high-sulfate water, 252
Minerals
272A, 274A, 312A, 480A, 503A, 570A, 571A, 31B, 38B, 39B, 45B, 91B, 126B
Influence of lysocellin and monensin on mineral metabolism of steers fed forage-based diets, 2140
Physiological effects of feeding high levels of magnesium to sheep, 1070
Salinomycin and lasalocid effects on growth rate, mineral metabolism and ruminal fermentation in steers, 2735
The influence of mineral supplementation on growth and skeletal development of yearling horses, 2831
Using plant breeding and genetics to overcome the incidence of grass tetany, 3456
Mink
47A, 162B

Mitochondria
237A, 240A
Cytoplasmic genetic effects and growth of hybrid mice, 887
Mitochondrial DNA
53A
Mitochondrial Genetics
Molecular analysis of cytoplasmic genetic variation in Holstein cows, 1926
Mitosis
Partial purification of a serum fraction from fasted pigs that inhibits proliferation of cultured myogenic cells, 3144
Mixed Model Methods
33A
Multiple trait prediction for a type of model with heterogeneous genetic and residual covariance structures, 2529
Mixed Models
35A, 69A, 79B, 162B
Mixing Equipment
604A
Modeling
303A, 436A, 437A, 458A, 175B
Models
87A
A simulation model of forage yield, quality and intake and growth of growing cattle grazing cornstalks, 581
Modified Contemporary Comparison
72A
Mohair
511A, 528A
Moisture
150A, 168A, 190A, 418A

65B
Ultrasonography
332A, 463A, 855A
Ultrasound
120A, 122A, 166A, 337A, 386A, 440A, 463A, 569A, 6B
Prediction of carcass characteristics at market weight from serial real-time ultrasound measures of backfat and loin eye area in the growing pig, 1657
Removing excess subcutaneous and internal fat from beef carcasses before chilling, 881
Using ultrasound technology to predict pork carcass composition, 1279
Using ultrasound, linear measurements and live fat thickness estimates to determine the carcass composition of market lambs, 3322
Ultraviolet Radiation
Providing vitamin D to confined sheep by oral supplementation vs ultraviolet irradiation, 794
Undergraduate Students
590A, 609A, 70B
Undernutrition
384A, 154B
Urea
418A, 479A, 506A, 42B, 43B, 91B, 192B, 206B, 230B
Ureapoiesis
Voluntary feed intake, acid-base balance and partitioning of urinary nitrogen in lambs fed corn silage with added sodium bicarbonate or sodium sesquicarbonate, 2116
Uridine Monophosphate Synthase
51A, 400A
Urine
The role of glucose infusion on the metabolism of nitrogen in ruminants, 1642
Urolithiasis
480A
Uterine
324A, 372A
Uterine Endometrium
325A
Uterine Length
Effect of initial length of uterus per embryo on fetal survival and development in the pig, 1767
Uterine Tissue
Effect of phenylephrine, ergonovine, oxytocin and norepinephrine as an extender ingredient on viability of bovine spermatozoa, 1573
Uterus
322A, 323A, 324A, 336A, 374A, 402A, 202B
Changing adrenergic sensitivity of the caruncular arterial vasculature supplying the bovine placentome, 3003
Differential growth factor content of uterine luminal fluids from Large White and prolific Meishan pigs during the estrous cycle and early pregnancy, 1538

Effect of initial length of uterus per embryo on fetal survival and development in the pig, 1767
Effects of the oviduct and wheat germ agglutinin on enzymatic digestion of porcine zona pellucida, 1324
Integration of ovulation rate, potential embryonic viability and uterine capacity into a model of litter size in swine, 1230
Relationship between uterine secretion of prostaglandin $F_{2\alpha}$ induced by oxytocin and endogenous concentrations of estradiol and progesterone at three stages of the bovine estrous cycle, 2347
Uterine secretory alterations coincident with embryonic mortality in the gilt after exogenous estrogen administration, 276

V

VFA
273A, 572A, 31B, 48B, 154B
Factors affecting the in vitro production of volatile fatty acids by mixed bacterial populations from the bovine rumen, 1593
Vaccination
Effects of preconditioning on performance of beef calves before and after entering the feedlot, 1678
The economic viability of preconditioning for cow-calf producers, 1687
Vaccine
23A, 171B
Effectiveness of vaccination in controlling ovine footrot, 1160
Vacuum Level
419A
Vacuums
Physical and sensory attributes of stimulated and non-stimulated vacuum-packaged pork, 704
Value
517A, 585A
Predictive equations for estimating lean cuts, fat-standardized lean, chemical composition, bone and value of pork carcasses, 2033
Vanillin
186A
Variance
29A
Estimation of components of variance and covariance by symmetric differences squared and minimum norm quadratic unbiased estimation: A comparison, 348
Variance heterogeneity in direct and maternal weight traits by sex and percent purebred for Simmental-sired calves, 2515
Variance Components
33A, 57A, 58A, 5B, 83B
Variance heterogeneity in direct and maternal weight traits by sex and percent purebred for Simmental-sired calves, 2515
Variance Covariance Matrix
Multiple trait prediction for a type of model with heterogeneous genetic and residual covariance structures, 2529
Variance Estimation
7B
Variation in Time of Day
85A
Vasectomy
Bilateral removal of the cauda epididymides in the neonatal pig as a technique for creating teaser boars, 15
Vasoconstriction
399A
Veal Calves
242A
Vegetation
Nutritive value of a vegetable amaranth cultivar for growing lambs, 3036
Venezuela
55A
Verified Production Control
21B
Veterinarian
604A
Viability
Effect of phenylephrine, ergonovine, oxytocin and norepinephrine as an extender ingredient on viability of bovine spermatozoa, 1573
Video
598A, 96B
Videomicroscopy
341A
Viruses
24A
Viscera
553A, 229B
Viscosity
132A, 141A
Vitamin A
523A, 113B
Vitamin B_{12}
503A
Vitamin C
243A
Effect of vitamin C and space allowance on performance of weanling pigs, 624
Vitamin D
124A, 356A, 357A
Providing vitamin D to confined sheep by oral supplementation vs ultraviolet irradiation, 794
Vitamin E
243A, 501A, 564A, 113B, 219B
Effects of parenteral selenium and vitamin E on performance, health and humoral immune response of steers new to the feedlot environment, 1350
Porcine immunoglobulin transfer after prepartum treatment with selenium or vitamin E, 1299
Vitamin Supplements
Providing vitamin D to confined sheep by oral supplementation vs ultraviolet irradiation, 794
Volatile Fatty Acid
576A
Influence of diet composition on intestinal fatty acid and nutrient absorption in unanesthetized pigs, 386
Volatiles
109A, 128A
Voluntary Intake
36A
Effects of a monensin ruminal delivery device on daily gain, forage intake and ruminal fermentation of steers grazing irrigated winter wheat pasture, 2129
Intake of direct cut or wilted grass silage as related to chewing behavior, ruminal characteristics and extent of digestion by heifers, 2802

Quantitative analysis of nycterohemeral eating and ruminating patterns in heifers with different voluntary intakes and effects of monensin, 2751
Voluntary feed intake, acid-base balance and partitioning of urinary nitrogen in lambs fed corn silage with added sodium bicarbonate or sodium sesquicarbonate, 2116

W

Warm Season Grasses
268A, 304A, 221B
Waste Management
15B
Waste Water Solids
256A
Water
283A, 558A
Effects of feed or water restriction, antibiotic injection and receiving diet management on commingled feeder pig performance, 1183
Influence of sulfate in drinking water on mouse reproduction during two parities, 1313
Water Analysis
481A
Water Buffalo
502A
Water Composition
Interrelationships among water quality, climate and diet on feedlot performance of steer calves, 357
Water Determination
116A
Water Holding Capacity
Fluid distribution in pork, measured by x-ray diffraction, interference microscopy and centrifugation compared to paleness measured by fiber optics, 1465
Water Intake
559A
Water Quality
Interrelationships among water quality, climate and diet on feedlot performance of steer calves, 357
Water-Filled Plastic Bags
558A
Wean-to-Service
94B
Weaned Pigs
232A, 242A, 112B
Weaning
36A, 91A, 229A, 198B
Apparent fat digestibilities and performance responses of postweaning swine fed diets supplemented with coconut oil, corn oil or tallow, 2040
Effect of group size and feeding regimen on nutrient digestibility studies with weanling pigs, 2684
Improving parity-two litter size in swine, 1707
Postweaning swine performance and serum profile responses to supplemental medium-chain free fatty acids and tallow, 2048
Temporal changes in carbohydrate digestive capacity and growth rate of piglets in response to glucocorticoid administration and weaning age, 2985
Weaning Weight
37A, 75A, 466A, 6B, 176B
Adjusting weaning weights of Simmental beef calves to an age-constant basis, 20
Adjustment factors for 120-day weaning weight in Rambouillet range lambs, 1107
Age of cow and age of dam effects on milk production of Hereford cows, 2544
Influence of sulfate in drinking water on mouse reproduction during two parities, 1313
Weanling Pigs
231A, 110B, 111B, 117B
Effect of vitamin C and space allowance on performance of weanling pigs, 624
Weanling Steers
211B
Weanlings
238A, 239A, 94B
Weather
100A
Weeds
473A
Weight
48A
Effects of changes in frequency of reticular contractions on fluid and particulate passage rates in cattle, 3388
Weight Change
13A, 386A, 44B, 155B
Weight Losses
79A
Effects of feed or water restriction, antibiotic injection and receiving diet management on commingled feeder pig performance, 1183
Welfare
102A
Wethers
394A
Control of fermentation in high-moisture baled alfalfa by inoculation with lactic acid-producing bacteria: I. Large round bales, 1577
Control of fermentation in high-moisture baled alfalfa by inoculation with lactic acid-producing bacteria: II. Small rectangular bales, 1586
Physiological effects of feeding high levels of magnesium to sheep, 1070
Relationships among intramuscular collagen, serum hydroxyproline and serum testosterone in growing rams and wethers, 698
The role of glucose infusion on the metabolism of nitrogen in ruminants, 1642
Wheat
247A, 263A, 44B, 76B, 145B
Wheat Bran
239A, 209B
Wheat Composition
40B
Wheat Middlings
489A, 63B, 214B, 215B
Wheat Pasture
51B, 191B
Effect of supplemental silage on forage intake and utilization by steers grazing wheat pasture or bermudagrass, 232
Wheat Straw
289A, 491A, 492A, 516A, 43B
Alkaline hydrogen peroxide-treated wheat straw as a source of energy for ruminal bacteria in continuous culture, 2081
Whey
118A, 136A, 169A, 175A, 231A, 232A, 513A, 1B, 111B, 117B

Effect of protein and(or) carbohydrate fractions of dried whey on performance and nutrient digestibility of early weaned pigs, 1307
Whey Proteins
134A, 139A, 183A
Effect of protein and(or) carbohydrate fractions of dried whey on performance and nutrient digestibility of early weaned pigs, 1307
Whole Cottonseeds
488A, 575A, 211B
Wholesale Cuts
164A
Winter
541A
Winter Feeding
91B
Wintering Programs
575A
Within- and Between-Cow Correlations
85A
Within-Herd Variance
84A
Wood's Model
426A
Wool
601A, 168B
Lifetime production of 1/4 and 1/2 Finnsheep ewes from Rambouillet, Targhee and Columbia dams as affected by natural attrition, 3258
Wool Pool
601A

X

X-Linkage
31A
X-Y Sperm
342A
X-ray Diffraction
Fluid distribution in pork, measured by x-ray diffraction, interference microscopy and centrifugation compared to paleness measured by fiber optics, 1465
X-ray diffraction measurements of myofilament lattice spacing and optical measurements of reflectance and sarcomere length in commercial pork loins, 152
Xylans
475A

Y

Yearling
The influence of mineral supplementation on growth and skeletal development of yearling horses, 2831
Yearling Bulls
88B
Yearling Steers
286A
Yeast
414A
Yields
131A, 133A, 168A, 170A, 274A, 452A
Yield and quality components of corn crop residues and utilization of these residues by grazing cattle, 597
Yogurt
Anticholesteremic property of *Lactobacillus acidophilus* yogurt fed to mature boars, 966
Young Pigs
233A, 118B
Yucca Extract
177B

Z

Zearalenone
57B
Zebu
91A
Zeolite
36B
Zeranol
435A, 464A, 551A, 570A, 571A, 49B, 196B
Effects of creep feeding, zeranol implants and breed type on beef production: I. Calf and cow performance, 609
Effects of creep feeding, zeranol implants and breed type on beef production: II. Reproductive development and fat deposition in heifers, 617
The effect of zeranol on live weight gain, feed intake and carcass composition of steers during compensatory growth, 3397
The effects of four implant treatments and two feeding systems on carcass and palatability characteristics of young bulls, 2655
Zinc
126B
Serum zinc, iron and copper status during early gestation in sows fed a folic acid-supplemented diet, 733
The influence of mineral supplementation on growth and skeletal development of yearling horses, 2831
Zinc methionine for ruminants: Relative bioavailability of zinc and effect on performance of growing heifers, 835
Zinc Methionine
126B
Zinc methionine for ruminants: Relative bioavailability of zinc and effect on performance of growing heifers, 835
Zinc Sulfate
472A
Zona Pellucida
Effects of the oviduct and wheat germ agglutinin on enzymatic digestion of porcine zona pellucida, 1324
Zona Penetration
340A
Zoo Animals
The role of biological research in the development of facilities, 2441
